The artist will be recognized at the event.

The two themes the trophies could center around are a lion head on a plaque or square cube (as lion's represent courage, strength and a will to survive). The second is the ripple effect because our inductees were hit with life's stones but didn't stay down; They rose to carry forward the message of perseverance and that is rippling out to the world through their inspiration. (NOTE: I have images I can share that I like).
